3.2.1 Log-In

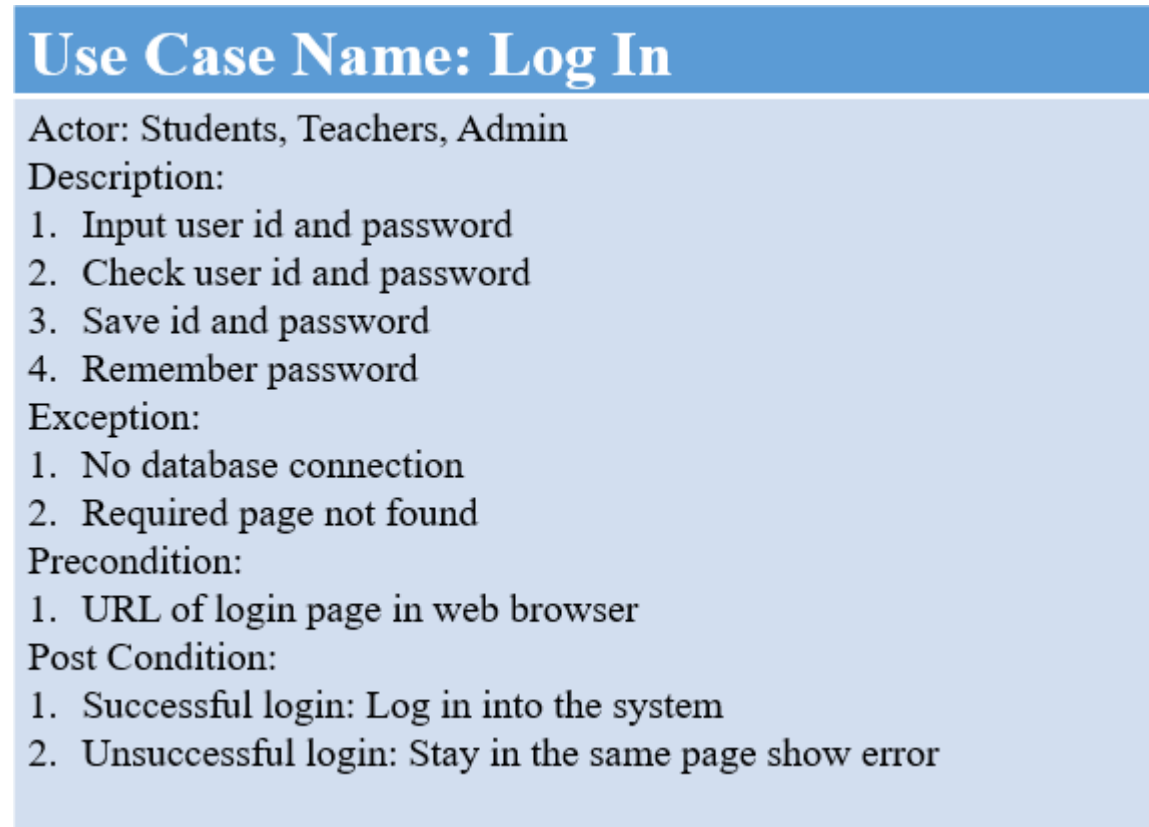

Figure 4: Log-In

3.2.2 Manage Teachers

Use Case Name: Manage Teachers

Actor: Admin

Description:

1. Click to the list of teachers
2. Select which teachers will take the exam
3. Select which teachers will prepare the question paper

Exception:

1. Can not choose the teachers

Precondition:

1. Admin must know which teachers will take the exam

Post Condition:

1. Successfully selected the teachers
2. Could not select the teachers

Figure 5: Manage Teachers

3.2.3 Manage Students

Use Case Name: Manage Students

Actor: Admin

Description:

1. Click to the list of subjects
2. Select a subject
3. Select which students will attend the exam

Exception:

1. No database connection
2. Required page not found

Precondition:

1. Log in to the system
2. Click on manage students
3. A Student list should be in the database

Post Condition:

1. Successful added the students
2. Could not add the students

Figure 6: Manage Students

3.2.4 Manage Exams

Use Case Name: Manage an Exam
<p>Actor: Admin</p> <p>Description:</p> <ol style="list-style-type: none">1. Click to the list of subjects2. Select a subject3. Select which students will attend the exam4. Select the question paper for the exam <p>Exception:</p> <ol style="list-style-type: none">1. No database connection2. Required page not found <p>Precondition:</p> <ol style="list-style-type: none">1. Log in to the system2. Click on the subjects3. Click on manage students4. A Student list should be in the database5. Questions should be in the database <p>Post Condition:</p> <ol style="list-style-type: none">1. Successful added the students2. Could not add the students

Figure 7: Manage Exams

3.2.5 Grade an Exam

Use Case Name: Grade an Exam

Actor: Teacher

Description:

1. Click to the subject
2. Click to the answer scripts
3. Check the answers
4. Exception:
5. No database connection
6. Required page not found

Precondition:

1. Log in to the system
2. Answer scripts should be in database
3. Answers should be in the database

Post Condition:

1. Successful graded the papers
2. Could not grade the papers

Figure 8: Grade an Exam

3.2.6 Seat for Exam

Use Case Name: Seat for Exam

Actor: Students

Description:

1. Log in to the system.
2. Click to the list of subjects
3. Select a subject
4. Click on the attend exam

Exception:

1. No database connection
2. Required page not found
3. Can not go to the attend exam page

Precondition:

1. Students should be added by the admin
2. Student should have that subject
3. Student name should be in the student database

Post Condition:

1. Successfully attend the exam
2. Could not attend the exam

Figure 9: Seat for Exam

3.2.7 View Correct Answers

The diagram is a UML Use Case for the 'Check Answers' function. It features a blue header bar with the title 'Use Case Name: Check Answers' in white. The main body is light blue and contains the following details:

- Actor:** Teacher
- Description:**
 1. Click to the list of subjects
 2. Select a subject
 3. Check the answers
- Exception:**
 1. No database connection
 2. Required page not found
- Precondition:**
 1. Log in to the system
 2. Answer scripts should be in the database
 3. Answer should be in the database
- Post Condition:**
 1. Successful checked the answers
 2. Could not check the answers

Figure 10: View Correct Answers

3.2.8 View Marks

Use Case Name: View Marks

Actor: Students

Description:

1. Click to the list of subjects
2. Select a subject
3. Click to the mark of the subject

Exception:

1. No database connection
2. Required page not found

Precondition:

1. Log in to the system
2. Students must attend the exam
3. Students name should be in the database
4. A Student list should be in the database

Post Condition:

1. Successfully viewed marks
2. Could not view the marks

Figure 11: View Marks

3.2.9 Log Out

Use Case Name: Log Out

Actor: Students, Teachers, Admin

Description:

1. Click to the Log out option
2. Reenter in the log in page

Exception:

1. Required action not completed

Precondition:

1. Log in to the System

Post Condition:

1. Successful logout: Log out from the system
2. Unsuccessful log out: Stay in the same page show error
